

Powering UP

OUR SOILS

JULY 12-14
2017

2nd Annual Meeting
St. Louis, Missouri

From July 12 through July 14, **soil health leaders** will converge to address critical topics in soil health that will **shape land use management decisions for generations to come.**

You are cordially invited to participate.

Plenary Sessions

- The Soil Health Institute Action Plan
- Harnessing the Phytobiome to Build Disease Suppressive Soils
- Achieving Attainable Levels of Carbon Sequestration
- National Soil Health Assessment
- Monetizing Soil Health
- Educating the Public on Soil Health
- Policies Influencing Soil Health Adoption
- Soil Health as a Business Imperative

Through presentations, panel discussions, and networking sessions, you will engage with international experts and peers on these important topics. Participants will gain an in-depth, comprehensive understanding of the respective issues and opportunities afforded through soil health, along with the strategic direction for realizing those opportunities.
